

Hands On Lab!

2 options:

- Install everything on your machine
- Use DevContainers inside Visual Studio Code and Docker:

<https://marketplace.visualstudio.com/items?itemName=ms-vscode-remote.remote-containers>

https://github.com/damienaicheh/terraform_tooling

Check your configuration

Just run in your favorite terminal:

For Terraform:

```
terraform --version
```

For Azure CLI:

```
az --version
```

Set up your Azure account

```
# Login to Azure  
az login
```

```
# Show your account  
az account show
```

```
# Select your subscription  
az account set --subscription <your-subscription-id>
```
